

neer Cooking Stove.

WOOD & CO., **3** | 3road-street, LE BLOCK, BANGOR.

pined tubrwheels for one of Valentine's, and, after our months' use of the same, I must say that it is mered the best wheels I ever saw.

In the same Mills, at the same time is the lowed wheels was put, in operation:

An the enomepodation that the Howd Wheel has, and noted if worthy of, I must give the Valentine Wheel has, and make the greatly the preference, and first these reasons—it costs far less, it vents less waith, when he was an one it costs far less, it vents less waith, where and only its capable of doing more highest.

The Valentine Wheel as near as learned educate, intestifier fifths as much water as the I will since the above wheel has been in operation lave seen ignound into good meal forty be whell of one per hour, with one ren of stones.

Yours, with respect.

Jense been engaged as Miller, in the I de Mills foresaid, for eighteen lears, and I fulls concur is a statements made by Mr New hall.

Fortland, Mr New hall.

Mr Samuel Weite—Sir: We have a construction of through you do these in the same construction.

theoretical discharge of 250 square money are as theoretical discharge of 250 square money as a short, we most heartily recommend the Val, inc Water Wheel as possessing or comb ning re of the requisite qualities of the very best Wal. Wheel, than any other known to us. We love to the second of the matter, to visit our new Val. Mill at Cogn, five a desfrom Periland Me Respect ully yours.

DAY 55 : YON

VALENTINE'S WATER WHIFE.

LENTINE'S WATER WHEF!

[To the Editor of the Whig and tourier]

I have lately purchased of Mesors Hinckes & Egery, one of Valentine's Patent Reserving Water

Wheels, which has been put in one atom is Mr.
David M'Clench, an experienced More weight of
this town, for propelling machinery in has Woodlen Factory. The wheels of far excels our ex, ectation
that I consider it an act of justice to the proposetriplic recommend the Wheel to persons hunding
Factories or other Milks as being superior to any
other Wheel with which I am act a need. The
Wheel is by feet in diameter, and in the said of water is 4 feet. This drives one set in Woodlen was
the superior with fulling mill and picke. The power is
very mar three times as much water as the H feet.
This Wheel which we have used herefore. The
Wheel is not obstructed by 2s a water, and goed
sofficiently steady with 14 one and of regulator —
Persons interested in Water Wheels we naticed to
